SIGNS • LABELS • NAMEPLATES • KICKING PLATES

## VINYL GRAPHICS

Almost any typeface or symbol can be vinyl cut quickly and economically to produce one-offs or small runs and can be applied to most surfaces with ease.

Letters can be supplied pre-spaced with carrier film ready for customers own application.

Frosted vinyl can be supplied in a variety of designs for application to glass doors and windows to give an acid etched appearance

There is a wide range of colours available in both matt and gloss finish. A price per letter chart for standard block letters can be found in our price list. Specials available by quotation.

## DIGITAL PRINTING

A new and rapidly expanding aspect of our business is large (and small) format full colour digital printing which is ideal for exhibitions, signs, banners and even outdoor signage and vehicle graphics.

The Cadet uses hard wearing solvent based inks to print onto vinyl and also incorporates a cutting facility. This makes it perfect for printing labels, stickers and posters.

It can produce large full colour graphics which can be cut to any shape and applied to a vehicle. The ability to produce high resolution prints onto vinyl means the graphics can then be applied to most surfaces, making this printer and the prints it produces extremely versatile.
